Aim of the training:

In 2015 Stellantis Group has performed the evolution of its system for evaluating the industrial performance of its suppliers through the QIPV4 standard. This system includes 3 types of audits (NSA, PCPA and QSB+). These audits are carried out during the various phases of collaboration with Stellantis Group.

The aim is to:

- Know the content of the QIPV4 process (phases and milestones)
- Understand the different phases of evaluation by audit (NSA, PCPA, QSB+)
- Understand the requirements of the QIPV4 reference.
- Know how to identify deviations from requirements.
- Create your action plan to implement the new requirements.

Completion of training:

Training will end with the short test.

Trainer:

Peter Varga – certified trainer (by Stellantis Group), working for TRIGO Slovakia since April 2016 as senior QEC (Quality Expert Consulting) engineer. Main activities are the customer audits on behalf of Stellantis Group (performed 90+ NSA /New Supplier Assessment/ audits for potential suppliers of Stellantis Group), customer specific trainings (Stellantis - APQP/PPAP, QIP V4 /QSB+, NSA/, CSR of Stellantis, etc.).
