CONTENT

The workshop focuses on independent processing of the relevant content and requirements of VDA 6.3 using case studies. During the theoretical part, the trainer briefly summarizes the topics:

- Audit preparation including risk analysis (turtle / knowledge database)
- Evaluation
- Presentation of results

In order for the participants to gain the maximum possible confidence during the development of the case studies, the trainer will explain separately:

Case study 1: Preparation for the audit and preparation of the schedule of the complete process audit P2 – P7
(audit during 2 days)

Case study 2: "Performing" a process audit within development (P2-P4)

Case study 3: "Performing" a process audit within the series (P5-P7)
